

Cape Byron State Recreation Area Survey

The NSW National Parks and Wildlife Service is looking at ways to improve Cape Byron State Recreation Area, including access to the Lighthouse precinct. A recent community survey indicated support for an alternative transport option to access the lighthouse precinct, as long as it was reliable, regular and reasonably priced. We would like to hear ideas from the local community and visitors on improved or new transport options, walking tracks and other facilities. The results of this survey will help inform a new masterplan for the park.
