PETITION

TO THE HONOURABLE THE PRESIDENT AND MEMBERS OF THE LEGISLATIVE COUNCIL OF NEW SOUTH WALES

The Petition of residents of and visitors to Byron Shire

state the current West Byron applications are opposed due to the irreversible major negative impacts on the ecological, social and economic future of Byron Bay, Byron Shire and the Northern Rivers region.

Your petitioners request that the House respond to these inappropriate development applications and take action to ensure that any development of West Byron is of a scale and form that will not detract from the regional importance of Byron Bay as a tourism attraction and will not adversely affect the efficiency and operation of the principal entry, Ewingsdale Road and will enhance the connectivity of the Byron Koala population and will have a benign effect on State significant wetlands and Cape Byron Marine Park.
